FOLDING ARM AWNING
LIFESTYLE

LIFESTYLE

The Lifestyle Awning is a premium quality open roll folding arm awning featuring stylish European design and high quality Australian manufacturing. The Lifestyle Awning provides shade, will cool your home and allows you to extend your outdoor living and entertaining space.

The Lifestyle Awning is available with a hood profile or the option of a semi-cassette and also features the optional drop arm bracket allowing the awning to project out further than its width making it perfect for small courtyards and limited space.

Suitable for wider widths, the Lifestyle Awning units can also be joined together to achieve spans up to 12m, and features mounting flexibility through the use of a square back bar.

LED lighting is standard with the Lifestyle Awning.

Create an atmosphere of sophistication and extend your entertaining well into the night thanks to the option of LED lighting in the arms of the Lifestyle Awning.

Operation

Our folding arm awnings feature an electric, remote controlled operation as standard. Electronic operation allows you to take advantage of our CleverAwning options using smart technology and helps you get more use from your awning – opening and closing at the touch of a button, and protecting the awning by allowing automatic closing in windy conditions. Some of our awnings may be available as a manual (crank) operation if required however this is not recommended.
